

## Installation procedure

1. Insert the installation CD in the DVD/CD ROM drive.
2. Install the XAMPP server, LAMPP or WAMPP server and MySQL server in your system. Follow the installation process as guided by the wizard.
3. Import the .sql files in the MySQL server you have just installed.
4. Copy the kenversitySACCO folder into htdocs in xampp or www folder in wamp
5. You can then run the system in a browser.
